

European Mail Summary.

We have papers to the 13 of October. The enthusiasm in favor of the French Republic continues unabated in Dublin, Cork and other towns in the South of Ireland, but some of the National papers are becoming uneasy at the diversion of the public sentiment from home politics. Recruiting for the British army is said to be almost at a standstill in Ireland, but the cause is mainly ascribed to certain unpopular regulations made in respect to a selection of regiments by the recruits. The Land Act is beginning to come into operation, and already it is found to have effected much benefit both for the landlord and the tenant. Lord Alfred Paget, on the part of Her Majesty the Queen, has paid a visit of sympathy to the ex-empress of the French at Chislehurst. Lord Alfred was wisely appointed for the duty, inasmuch as he was in attendance upon the Emperor and Empress during their visit to London, and was personally well known to both of them. The *New Free Press* of Vienna says that after the battle before Lillo, the neutral powers which were already acquainted with the Prussian conditions, wished to interfere on behalf of France. They received the following reply from the royal headquarters:—"We shall not abandon one of our conditions should we have to fight against the whole of Europe." The *Univers* says:—"In the battles before Metz, on August 16 and 18, Marshal Leboucq vainly sought death. Before going into battle he put on all his decorations, and in full uniform of a marshal he wished to be one of the first under fire. The bullets rained around him, he officers fell by his side—he alone was not wounded. He has openly avowed that he had not dared to tell the Emperor he was not ready. The three Graces have been playing an extraordinary cricket in Gloucestershire. Mr W. G. Grace hit three sixes off three successive balls. Dr. E. M. Grace scored 211 (not out) in one innings, during which he hit the probably unprecedented number of eleven sixes. Mr Frederick Grace struck a ball with such force that it went clean through a lady's parasol like a cannon-shot. The Queen has been pleased to approve a marriage between the Princess Louise and the Marquis of Lorne, the eldest son of the Duke of Argyll. The Princess is now in her 23d year. Lord Lorne is nearly three years older. He was educated at Eton and Trinity College, Cambridge. He has sat in the Liberal interests for Argyllshire since 1868, and is the author of interesting memoirs of his travels. Admiration is expressed at the courage of Her Majesty in putting aside precedents which have been previously enforced, without any consideration for the feelings of those immediately affected by them. The company of divines who have undertaken to revise the authorized version of the New Testament have held several further meetings, and are stated to be pursuing their labors with great harmony and success. Mr Montagu Bertie, Q. C., has been appointed Recorder of Bristol in place of the Attorney-General, who resigned the office on account of dissatisfaction expressed by his constituents. The National Fund for the Relief of the Sick and Wounded Belligerents exceeds £225,000, and the French and German special funds, particularly the latter, are very large in amount. The deaths are announced of Lord Charles Berke Percy, uncle of the Duke of Northumberland, and of Mr Gordon Rebrow, late M. P. for Colchester, aged 74. The Hon Arthur Gordon has been gazetted as Governor of the Mauritius and its Dependencies. The recent decision of the House of Lords in the Newcastle case, that peers are subject to the operation of the Bankruptcy Act, has led to proceedings against several members of the Upper House. The Earl of Winchester has been adjudicated a bankrupt, and a petition against Lord Mostyn remains undecided for the present. The court-martial held to enquire into the loss of the Captain concluded its deliberations. They found that the fault lay with the ship herself, and not in any way with her commander, officers, or crew. Professor Matthews, of St Bartholomew's Hospital, the distinguished chemist to whom the medal of the Royal Society was awarded last year, has committed suicide by taking prussic acid. Margaret Waters, the babyfarmer, convicted at the last session of the Central Criminal Court, was executed within the precincts of Horseferry-lane Gaol.

SEATTLE.—Mr Frank Guttenburg has removed his saloon to Yester's wharf, where his Victoria friends will find him.

THE ELECTRIC TELEGRAPH.

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES.

Europe.

VERSAILLES, Nov 9.—The *London Herald's* correspondent at Versailles writes on the 6th as follows:—"Reports from the south of France are of an extraordinary nature. Fifteen departments have absolutely seceded from the rest of France, and in conjunction with Algiers are engaged in organizing a separate government."

All the Prussian commanders regard peace as impossible until Paris has been taken; but even now the bombardment is not certain. Seige guns are actually in position of many points but it is believed that firing will not be commenced before the 15th.

Intercepted letters from Paris are filled with complaints of food.

A *Tribune's* special from the head quarters of the army of the Loire, under date of the 6th says: "This army has increased rapidly and now numbers 100,000. The men are well equipped and fed."

LONDON, Nov 10.—To-day's war dispatches chronicle important French successes before Paris, and the capture of several Prussian camps.

Garibaldi is again victorious and has routed a force of Prussians 5000 strong.

The latest from the army of the Loire says there has been three days continued fighting without decisive results. The losses of the French are frightful but the enemy was driven back 10 miles.

LONDON, Nov 9.—The firing from Valerien has been incessant, but harmless, for the last twenty-four hours.

The bombardment of Paris is expected soon. From St Cloud the Prussians can send shells to the Tuilleries.

The *Herald's* correspondent had an interview with Napoleon, in which the latter freely expressed his views on the situation, and compared France with America, saying that all conditions requisite to a true Republican Government were absolutely wanting in France. Those who grasped the reins of Government in Paris have shown themselves incapable, and have put heavier restraints than he did on the press.

LONDON, Nov 7.—The *World's* cable says that fearful distress and discontent prevails in Germany, caused by the prolongation of the war which the journals dare not speak of. Prussia is nearly exhausted.

LONDON, Nov 9.—The *London Times*, this morning, discusses the Alabama negotiations to show that England can go no further in the way of concession. It says the Clarendon treaty abounded in concessions, and many Englishmen thought that it yielded so much that ex-minister Johnson had out-witted Clarendon, as the rejection of the treaty by the United States was owing to political irritability. England stands free from all blame.

MADRID, Nov 9.—The editors of journals issued in this city have united in a manifesto opposing the candidacy of the Duke of Acosta for the Spanish throne.

LONDON, Nov 10.—A special from Tours today says that at length the French armies have achieved triumphs. Van Dann, who was at Orleans with 25,000 men, became afraid that his position might be hemmed in, and was preparing to make towards Paris when he was assailed by the sixteenth corps under Gen Lussac. After a severe engagement he was compelled to evacuate Orleans, which is now occupied by the French. The Prussian loss was five thousand killed and wounded. Pursuit of the retreating Prussians is now going on, and the defeat and capture of the whole force is probable.

A special correspondent telegraphs from Lille on Nov 9th at 6 a.m.: "At the headquarters of Gen Bourbaki there is little agitation at the Prussians approaching the enemy. The movements are strictly concealed. The Prussians are reported fifty leagues from the city. Organization is proceeding with rapidity. The troops are said to be some of the best now in the service, and supposed to number about 300,000. Lille has been fortified like Strasbourg and somewhat resembles that city. The inhabitants have been ordered to provide themselves with provisions for three months or leave the city."

Tours, Nov 10.—The Prussians evacuated Orleans yesterday in great haste leaving 500 sick and wounded. The day before the French gained success at Coulmiers. The Prussians were strongly entrenched in position, but were dislodged suffering heavy losses.

The French are moving forward to Joigny where they will occupy a strong position.

The French troops are acting excellently. One regiment of Chasseurs kept a large Prussian force checked until other French troops came up, when the Prussians retreated.

The journals of Lille announce that Gen Bourbaki, who has not resigned, has organized a large force.

Tours, Nov 9.—Kertry, having organized the army of the West, is forming a camp in Brittany for another army 100,000 strong.

Lyon is preparing for defence, and Toulouse is sending forward large numbers of troops fully armed and equipped. Order prevails in both cities.

Letters from Paris of the 6th says the news that the armistice had been rejected fell like a thunder-bolt upon the people. A day of such general gloom has not been witnessed since the commencement of the siege.

LONDON, Nov 10.—Special cable dispatches received to-night state that the French fleet are bombarding Hamburg.

A dispatch from Berne via Berlin reports that Garibaldi has surrendered.

FLORENCE, Nov 10.—The Austrian Government has officially approved of the Italian policy at Rome.

Tours, Nov 11.—Dispatch just received as follows: "We have taken possession of Orleans. The fight lasted two days. The aggregate loss of killed and wounded will not reach 2000. Those of the enemy was much larger. We have made more than 1000 prisoners thus far and have also captured 20 ammunition wagons, a great number of cannon and a quantity of provisions."

Tours, Nov 11.—Despatches from Chantilly report a large French force there well supplied with artillery. Troops from Lyons are marching to meet the Prussians.

LONDON, Nov 11.—Workmen are occupied at Lille in the interior and exterior of the fortifications. Orders have been issued to provision the city for six months, the authorities having profited by the experience of Strasbourg and Paris fortifications.

New York, Nov 11.—Panama papers contain but little news. The rumor that one French gunboat captured several German vessels is probably unfounded.

LONDON, Nov 11.—The formal surrender of New Breach occurred this afternoon. Col Chavellier has been authorized to recall his Papal Zouaves to fight for France.

A special from Brussels states that political circles are impressed with the belief that new arrangements for arbitration have been effected by the four neutral powers.

Tours, Nov 11.—Journals report that the

Prussians have lost over ten thousand killed and wounded and 1800 prisoners in the fight around Chartres and Chateau Don.

LONDON, Nov 11.—Official dispatches have been received announcing the capitulation of New Breach. The fortress and 5000 prisoners fell into the hands of the Germans. No guns captured.

A rumor from Berne and Berlin states that Garibaldi had surrendered Geney, is discredited.

The report published in the *Daily News* relating to the attitude of the Empress Eugenie is pronounced false.

It is thought Prussia will prefer the annexation of Alsace and Lorraine to any guarantee. Prussia's relations with Austria and Russia are not such as to render any guarantee from them acceptable.

The Terminus at New Westminster

The following resolutions were passed at a public meeting held at New Westminster on Friday night:

Resolved, That we, the inhabitants of New Westminster, most strongly deprecate the agitation at present carried on by the people and press of Victoria regarding the location of the terminus of the trans-continental Railway. That we believe the same to be hurtful to the cause of Confederation and at the same time tending to create a sectional feeling which, at this important epoch in the history of the Colony, ought not to exist.

The next resolution was moved by Mr H Nelson, (our member elect):

That a Committee be appointed to draw up a series of resolutions to be submitted to an adjourned meeting on Monday evening next.

The following gentlemen were appointed:—W J Armstrong, W Fisher, H V Edmonds, J A Webster, H Nelson, Capt Irvine and J T Scott. On motion, by Mr Fisher, it was resolved to forward a copy of the above resolution to His Excellency the Governor by first opportunity. It was moved by Mr J C Armstrong that the Secretary be requested to communicate with Burrard Inlet, Langley, Chilliwack, Yale, Clinton and Cariboo and forward a copy of this resolution. The meeting then adjourned.

FROM CARIBOO.—From passengers by the Grappler from Cariboo, yesterday morning, we have most encouraging accounts from the mines. The Lightning Co, on Lightning Creek have struck new pay which exceeds all former yields. Messrs Ardell and Wistrip, shareholders in the claim, brought down large quantities of dust, which was yesterday deposited at the Bank of British North America. The Cariboo Co, on William Creek has also struck new pay, and is earning largely. The snow on the mountain was 2½ feet deep when the stage left, and the lighting was good to Boyd & Heath's, at Cottonwood.

MR GEORGE J FINDLAY.—This gentleman, long and favorably known from his connection with the mercantile firm of Findlay & Dorham (latterly Findlay, Darham & Brodie) will sail in the Pelican to-day for England. Mr Findlay is an eighty-year-old resident of Victoria and is one of our leading and most successful merchants. His friends—whose name is legion—will join him in wishing him a pleasant voyage to the land of his birth and a speedy return to the colony of his adoption.

FROM NEW WESTMINSTER.—The steamer Grappler, Capt Devoreux, arrived from Burrard Inlet yesterday morning at 1 o'clock, having towed down the bark Joachim Christia, loaded with lumber. She brought down the following passengers: Hon Hugh Nelson, Capt Parsons, G B Sweeney, Jeece, Jas Ardell, L Wistrip, A Johnston, Barker, Sabern, F Dibble, Glendinning and 6 others.

FROM HOWE SOUND.—The schooner Industry arrived from the whaling station at Howe Sound last evening with a cargo of oil and bone, which will be discharged to-day at Esquimalt. The company have in all six whales for the season.

The steamer Isabel arrived from Puget Sound at 7:15 o'clock last evening, bringing 75 passengers. On the way down from Olympia to Port Townsend yesterday the Alida received and landed 184 passengers.

The U. S. S. Newbern sailed from San Francisco on her last trip to Victoria and Alaska on Sunday. Upon her return to San Francisco with the remnant of the U. S. troops she will be sold.

LILLOOET-CLINTON ELECTION.—At the close of the poll at Clinton, on Thursday last, Tynon stood fifteen votes ahead of Humphreys. Lillooet has not been heard from.

FAST TOWING.—The Grappler towed down the bark Joachim Christia from the Hastings Mills to the Royal Roads in twelve hours.

The brig Admiral sailed from San Francisco on the 9th inst for Burrard Inlet. She will load lumber at the Hastings Mill.

F. CAMPBELL has received from Mr Murphy, editor of the Alaska Times, Seattle, Wt, a rutabaga turnip from White River which weighs 32 pounds.

FOR THE SOUND.—The steamers Isabel and Eliza Anderson will leave for the Sound ports between 10 and 11 this a.m.

The Assize Court will assemble to-morrow.

The Pelican will sail for San Francisco at 10 o'clock this morning.

THANKS.—To Parents D Lowell and F Finch for favors.

Cariboo Summary.

We glean the following items of intelligence from the Cariboo Sentinel of 5th inst. A political meeting was held at which Messrs Carrall, Walkom, Todd, and C Booth spoke. Dr Carrall appears to be the favorite for Cariboo. A Chinaman named Ah Mow, was murdered on 2nd inst, at Barkerville; a Frenchman, a farmer named Jean Boulanger, is in custody on suspicion. At the nomination the show of hands was in favor of Mr C Booth. The great hope of Cariboo appears to be centered at Lightning Creek; the success of the Spruce Co. has established confidence and the most active exertions are being used by the majority of the companies to erect machinery sufficiently powerful to contend with the chief difficulty—water. There were about 18 inches of snow on the creek when the express left, and from two to three feet on the divide. Seiligh was good to Boyd & Heath's and thence downward wheeling was excellent. The weather was cold and clear. There was ice in the Fraser at Quesnelmouth. The steamer Victoria brought the passengers and stage to the landing four miles below Alexandria where the steamer would remain to abide events; if the weather continued open she would probably make two or three trips more, if not, she would be laid up. The telegraph working party has reached Soda Creek and it was expected that the wires would be up to Quesnelmouth this week; the impression formed by passengers on the road was that the work had not been done very substantially. The machinery and pump for Lightning Co. was passed at Cook's Ferry, going up. On reaching Clinton the election for the member from the Lillooet-Clinton District was going on; the bulk of the votes had been recorded at Clinton, showing a majority of 15 for Tynon, but it was stated that Humphreys was ahead at Lillooet. Lamont has started with an express for Germain Creek before the down express left. The news from Omineca was held to be very favorable, and a large number of men are likely to go over there from Cariboo in the spring.

On William Creek the Downie Co., which had rigged up to work all winter, has had a slide which broke down their dump house, and they have suspended operations. All the ground-slucing claims have stopped for the season. The Forest Rose Co. washed up 160 oz. last week and the Cariboo 90 oz. On Mosquito Creek the prospects for paying quartz are very good. Mr Jeffrey, who is about leaving for Victoria, takes a very fine specimen from Sadox's ledge. On Lightning Creek the Lightning Co. are getting very rich pay again, and the yield this week is expected to be very large. The Spruce Co. washed about 65 oz. from 11 sets of timbers. The Gladstone Co. have raised in the rock and struck gravel which prospects about 25 oz. to the pan, but have not yet got into the channel.

FROM OMINECA.—The Cariboo Sentinel contains news of interest from Omineca, extracts from private letters: 'W Cusi has arrived from Omineca. He reports everything making money on Germanen creek—say from ten dollars to three ounces per day. Joe Clearing, Joe Brown and Paine have the best claims on the creek. A tunnel run into the hill paid expenses from the first start. Cusi thinks that, grub having been sent up in such large quantities, most of the miners will winter there. A letter from Mr Fitzgerald, dated at Stuart's Lake, 24th Oct, confirms the best news. He says some of the boys have had a slight attack of scurvy. He arrived there on the 15th to procure vegetables, but found all destroyed by frost. Up to the present time no extensive digging have been found, but if gold is found above the creek everything will be lovely and the goose elevated.'

ODD FELLOWS HALL was again ablaze on Sunday evening. This time, there is little doubt, the fire was purposely caused. The interior of the building was much damaged, and the Odd Fellows' fixtures and trappings may be said to be utterly ruined. The Order are insured in the Royal and Mr Golden in the Phoenix.

MECHANIC'S LITERARY INSTITUTE.—This evening Hon Mr Haskin will read 'Bingen on the Rhine,' 'Bob Sawyer's Party,' and a selection from 'David Copperfield.' There will be a musical interlude by lady and gentlemen amateurs.

The steamer Eliza Anderson, Capt Finch, arrived from Olympia and ports on the Sound last evening at 6:15 o'clock with 25 passengers, 52 sheep, 63 hogs, 9 head of cattle, 1 ton of flour and other freight.

The ALHAMBRA MINSTRELS held forth to a large and delighted audience last evening. Several new and wonderful acts were introduced.

SERENADE.—Messrs Helmcken and Nathan, members elect, were serenaded last evening by a large party of their friends, who were accompanied by the Volunteer Brass Band.

THE CORPORATION.—A R Robertson, Esq, was yesterday sworn in as Mayor and Messrs Grow, Heathorn, McMillan, and Russell as Town Councillors to serve during the ensuing year.

H. M. SPARROWHAWK started for Nainimo at 6 o'clock yesterday morning to take a company of marines from San Juan Island to Nainimo, where they will be stationed to prevent riot.

NAINIMO.—The polling at Nainimo took place yesterday. We expect intelligence of the result to-night.

The Lightning Co. on Lightning Creek a few days ago, picked up 86 ozs in coarse gold from their claim.

The steamer Enterprise will leave for New Westminster this morning at 9 o'clock.

The Election.—Glorious Result.—Return of Messrs Helmcken and Nathan by Large Majorities.

The result of the election yesterday took no one by surprise. Whatever doubt the more timid friends of Messrs Helmcken and Nathan may have had the night before, were completely dispelled upon reading the Standard of yesterday morning. The muddy sawyer with which the bursting of the main-pipe of that sewer despatched those two gentlemen, spurred their friends on to greater exertions while it correspondingly depressed the supporters of Messrs Nicholson and Carey. 'My God!' exclaimed a warm and rather demagogic friend of Mr Nicholson, 'what has poor Nicholson done to be cursed with the praise of the Love of the World?' Another warm supporter proposed to call in yesterday's edition of the Standard and issue another taking the opposite side before 12 o'clock. But it was too late. The poison had done its work, and although the 'itching palm' of the Main-pipe stood ready to be 'crossed' by either side, his greed for filthy lucre was unsatisfied.

The poll was opened at 8 o'clock by the Sheriff. The first vote cast was for Nathan—a plumper. It was followed by four or five for Nathan and Helmcken and one for Nicholson. Next came a vote for Carey, and then half a dozen for Nathan who in a few minutes stood 14 to Helmcken's 9, Nicholson's 6 and Carey's 1. As the polling commenced, so it continued throughout the day. At 9½ o'clock Nathan had 49, Helmcken 37, Nicholson 25, Carey 11. At 12 o'clock, Nathan 139, Helmcken 96, Nicholson 68, Carey 37. At 3 o'clock, Nathan 333, Helmcken 289, Nicholson 222, Carey 79. From that hour on till 4 o'clock, when the polls closed, a good many plumpers were cast for Carey, which caused him to turn the corner of 100—the remaining three candidates occupying relatively the same position to each other as at three o'clock. At 4:20 o'clock, the High Sheriff announced the result of the poll to be as follows:

Nathan	398
Helmcken	351
Nicholson	287
Carey	102

The announcement was received with vociferous cheering.

Mr Nathan—one of the members elect for the city—mounted the stand and was received with 'Nine cheers for the Boy!' Mr Nathan thanked the electors who, he said, had not only elected him but placed him at the head of the poll. (Cheers.) He felt deeply thankful for the honor that had been conferred upon him and hoped that his acts in the Council would be such as to merit a renewal of their confidence. (Loud cheers.)

Dr Helmcken next came forward and thanked the electors for having returned his pupil. (Cheers and laughter.) The colony had this day 'crossed the Rubicon.' (Hear.) From this day it might be reckoned as part of the Dominion of Canada. (Cheers.) The responsibility rested with those who had voted for him; but he expected only good to flow from the union. Confederation would assist Canada in making a nation extending from the Pacific to the Atlantic. Just now we seemed like dry plaster of Paris; but we would mix that dry plaster and use it in cementing the people of British Columbia and Canada in one perfect Brotherhood.

Dr Helmcken retired amid loud cheering. Mr Nicholson was loudly called for, but did not appear.

Mr Carey thanked the electors for the good order and good feeling that had prevailed throughout the contest, and asked all present to bury the political ax. He had solicited no one to vote for him and felt gratified that so many fathers of families had given him their votes. Mr Carey eulogized the successful candidates—Dr Helmcken, especially—and upon leaving the stand was loudly cheered.

Mr Nathan then proposed three cheers for the Sheriff, which were given with a will, and the electors then dispersed, apparently immensely pleased with the result of their day's work.

There was much challenging during the day, and several parties from the district, with no fixed place of business in the city, who attempted to vote, were turned away. About 29 were prevented from voting because they could not read. One man when asked if he could read, replied, 'Yes, better than you.' A copy of the Directory with the advertisement page of the Hotel de France was shown him. He spelled 'H-o-t-e-l'—Hotel—ship Hotel. There! exclaimed he, with a triumphant air. But the Sheriff ruled him out.

THEATRE ROYAL.—The management of the Theatre has passed into the hands of Messrs Ward, Thornton and Melville, who, with the Pixley Sisters, Miss Eva West and other talented artists, propose giving a series of select entertainments during the season. Last night 'Meg's Diversion' was most cleverly rendered—better than we have seen it done on a first class stage in a large city. Miss Annie Pixley as Meg, Miss West as Cornelia, Mrs Bella Bird as Mrs Vernon, Mr Ward and Mr Melville as the pair of Pigeons, Mr Thornton as Merton and Mr Dennis as Crow, were much applauded. In the interlude the Pixley Sisters, Miss West and the inimitable Tony Ward were excelled. The afterpiece of the 'Specie Bridge' concluded the entertainment. This evening there will be another performance.

A Compliment to Our Fire Brigade.

VICTORIA, Nov 12, 1870.

EDITOR BRITISH COLONIST.—Sir,—May I, as a visitor to your city, be permitted, through the columns of your paper, to express my satisfaction at the manner in which your Fire Brigade did their duty at the fire at Mr Golden's last night. For nearly a quarter of a century of my life, I was attached to the Police in England and Canada, during which time I officially attended a great many fires; but I have never before seen such order, activity and discipline displayed as on the occasion above referred to. Every command of the officers appeared to be obeyed quickly and quietly. So long as the Fire Brigade of Victoria continue to conduct themselves as they did at the fire last evening, I think the citizens should be proud of them. The only object I in writing this is to give encouragement to a useful institution and praise where I think it is due. I am, Sir, yours truly,

W. D. FERRIS.

The scene of the battle between the forces of Gen Rolland and those of Gen Von Dorn was near Orleans.

BERLIN, Nov 12.—Queen Augusta received the following telegram from the King, dated Versailles 11th: Gen Von Dorn yesterday retired from Orleans to Tours before a superior force of the enemy. He fought all the way, and has already been reinforced by Gen Wistshof and Prince Ulysses, the latter coming up from Chartres. The Duke of Mecklenburg-Schwerin will join his forces to those of Gen Von Dorn to-day.

LONDON, Nov 12.—Bismarck has issued a circular to the representatives of North Germany in foreign States, giving his version of the late negotiations for an armistice. The King was even more eager for peace than Bismarck. Bismarck proposed a truce for four weeks the respective armies meanwhile to remain fixed in order that the elections might be held throughout France. The only effect on the French side of this truce would be a stoppage of the waste of ammunition from their forts.

Thiers regretted that the revictualing of Paris was not provided for, saying it was an indispensable condition of the proposed armistice. This absurd demand to go back 2 months in the prosecution of the war was impossible. Subsequently an offer for a short truce was made. Thiers reported this to the members of the Provisional Government, by whom it was rejected.

BERLIN, Nov 12.—Dispatches were received here to-day from headquarters. Versailles stating that Paris will not be bombarded, the Prussian authorities being convinced that the city is illly provisioned that its surrender may be expected within a month from that cause alone.

The battle of Orleans was a very serious one.

Rumors are rife of a rupture between Bismarck and Von Brest.

The authorities at Tours do not regard the rupture of negotiations for the armistice as final.

Six thousand German troops are marching on Montmedy. A renewal of the bombardment of that town is expected.

LONDON, Nov 12.—It is said Gambetta is intriguing for the restoration of the Orleans dynasty, and has accepted the services of the Orleans Princes.

A correspondent telegraphing from Berlin says the capture of Orleans is confirmed. It is also confirmed that Russia has asked for a revision of the treaty of 1856.

There is considerable excitement here over a rumor that the bombardment of Hamburg is hourly expected.

Capt Emerson, of the ship Japan from Liverpool, reports that his ship took fire to the hold on August 25th, in latitude 57° and 47' S, in the Pacific. Her hatches were well battened down and every effort made to extinguish the flames, but without success, and she was abandoned by her officers and crew, 22 in number, who were transferred to the ship Matchless. Subsequently a portion of the crew were sent to Valparaiso and a portion to Concepcion. He left a valise full of clothes, a shoemaker's kit and a memorandum book containing the following entry: 'Life is to me a burden. To-night I take my life. The What Cheer House owes me \$35, and also my baggage. I deposited with the clerks \$50, and drew \$15. Buy me and let no doctor have my bones. Dear and beloved friends I recommend you to Heaven. Signed—'Kurnew.' He was apparently about 35 years of age and an Irishman. There was a morphia bottle in the room.

There are rumors on the street of heavy delatations in a leading Washoe mining co. The stock has declined very seriously on the strength of the rumors.

The fire this evening originated in a barn on Sacramento street, No 18, owned by Dr Merritt of Oakland and occupied by Thomas Motney as a hay depot. It crossed in a few minutes to Sanders' Hotel, No 20 Sacramento street, to the Arizona Mining and Prospecting Co's building, the Star Restaurant, No 4 Sebastopol Coffee House No 12, Philip Cohen's barber shop No 10, and another not wholly destroyed. On Commercial street the coffee stand of Nicholas Antiochian, the empty barn adjoining the hay store and Dugan's Restaurant, all of which were wholly destroyed with the exception named. Some 12 families occupying upper stories were burned out. The loss is about \$40,000—insured for about \$20,000. There was a lot of coal oil in Batchelder's Ship Chandelers store on Commercial street, which ignited and produced a furious blaze, but the building was saved in a damaged condition. The one hundred thousand dollar prize was paid to-day. Hellman authorized Seigman & Co to expend \$5000 of the amount here in charity and the same amount in New York out of the prize.

A prominent firm of attorneys have refused \$15000 to defend Mrs Fair on the charge of murder. It is thought no leading lawyers of San Francisco will consent to take the case.

RENO, Nov 10.—Yesterday Chapman, one of the railway robbers, came down here in a train from the West in the same car with a man who was searching for him, but did not suspect who he was. Chapman deliberately went into a saloon in the upper part of the city, pulled off his coat and sat down by the fire. Shortly afterwards officer Edwards with two of the robbers whom he had in charge, stepped into the saloon. One of the robbers said, 'Why, Chapman, what brought you here?' Edwards at once put his hand on Chapman's shoulder and said, 'I want you.' A considerable portion of the money has been recovered and there is now no doubt that all the robbers have been arrested.

Utah.

SALT LAKE, Nov 11.—The same party of Mormons who captured the two men supposed to have been concerned in the robbery on the C P Railroad, after bringing the prisoners to the city started out again after the others and returned with two more to-day. While the robbers were being pursued they threw away both their saddles, which have since been found. They contained a large amount of greenbacks, Boise gold dust and some jewelry, which is sufficient evidence to convict them also of the Boise and Idaho stage robbery, which occurred on the 6th August.

Medical. French Medicines. TO PHYSICIANS. GRIMAULT & CO. PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confused with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France, with regard to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine, and have been proved efficacious, either in the Hospital, or in the practice of the first medical men, are authorized by the Government. This fact must be a guarantee for the excellence of Messrs. GRIMAULT & Co's medicines.

CHING FUN—A CARD—EDITOR. British Colonist.—Through the medium of your paper I want to state the very great good that has been done me by Dr Ching Fun of this city.

For 24 years I suffered with neuralgia on the brain, which baffled the skill of three first-class American physicians. Latterly bronchitis attacked my right lung, and my eyes became awfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr Ching Fun, and after five months treatment I am a well man and feel that I cannot soundly praise him enough. He enabled me to do so, so that all my countrymen similarly affected may visit him and find relief. Respectfully, JOHN HENTON, of Kentucky, U.S.

Political. YALE-LYTTON DISTRICT. TO THE ELECTORS OF YALE-LYTTON DISTRICT:

GENTLEMEN—Understanding that Mr Barnard retired from the representation of this District, and having been asked by many influential inhabitants to stand as a candidate for election, I willingly consent to offer myself to you.

The coming Session is likely to be one of great importance and many questions of grave moment will undoubtedly be brought forward and being myself deeply interested in the welfare of the Colony, and having now spent many years in it, I feel that my experience may be of some value in the Council if you do me the honor to elect me there.

No one can fail to see the value to us of the proposed terms of Confederation with Canada, and I shall do my best to see the negotiations carried to a satisfactory termination.

I am in favour of the immediate adoption of the Canadian Tariff.

I can only add that the best interests of the Colony and especially of the district which I may represent will always be my especial study.

I am personally known to many among you and I ask for your support in the full belief that if you elect me I can be of service to you. My utmost endeavors shall be directed to that end, and as I have no personal interest in offering myself as a candidate, you can well afford to believe me.

I have the honor to be, Gentlemen, Your obedient servant, CLEMENT F. CORNWALL.
